

Stepan Bolshakov

Managing Director

With a Computer Science and Automated Systems degree and over 20 years of expertise in IT Management, Telecommunications, and Sales, Stepan has a rich history of serving in diverse IT Management and Sales roles within Mobile Service Providers, FMCG companies, and Telecommunications equipment vendors. He was involved in IT infrastructure projects catering to major enterprise customers, hyperscale data centers, and leading banks and financial institutions. As the Managing Director, Stepan's role revolves around creating lasting connections with our significant customers, articulating the customer's voice within our organization, and ensuring our solutions significantly benefit our clients' businesses.
